Collaboration that works in all spaces.

Crestron has been a Microsoft partner for well over a decade. And has delivered every generation of room system since 2012. Crestron Flex is the latest and most robust result of that partnership. A Unified Communications solution that realizes the full potential of every aspect of the Microsoft ecosystem.

Only Flex Can

Open standard platform—decouple hardware and software

Provide native Microsoft® or Zoom Rooms™ Systems—for one consistent experience from desktop to boardroom—one easy access to features and updates

Deliver a complete range of Microsoft certified state-of-the-art products backed by decades of audio and video expertise

Ensure an easy migration from Skype® for Business to Microsoft Teams® software

- Flex kits are Skype for Business, Microsoft Teams, and Zoom compatible
- Customers can transition at their own pace, within their own budget

Integrate with smart building ecosystems—one touch Flex button connects to scheduling, AV control, room controls

Available at:

- Distribution – Scansource
- Resellers – ITPRO, DMR, SI, TELECOM

Crestron Flex Deployment Guide

for Microsoft Teams® | Skype® for Business

Which Crestron Flex system suits your needs?

Crestron Flex is the ideal solution for customers who wish to leverage their Microsoft voice and video environments. Or, put simply, to create a connected meeting experience.

Personal Workspaces

Personal desk
Executive offices
Common areas
No UC / AV integration options

P100 / P110

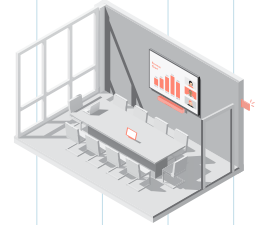

Small Meeting Rooms

2–6 people
Up to 10 feet from display
Limited integration options

M100

Medium Meeting Rooms

6–12 people
Up to 20 feet from display
Some integration options

M130 / M150

B130 / B140 / B160

Do your customers prefer having maximum audio pickup for voice, even in potentially noisy environments?

If yes, choose a tabletop solution such as the Crestron Flex **M-Series**.

Do your customers prefer having a totally clean tabletop with all of their equipment mounted on the wall?

If yes, choose a wall mount solution such as the Crestron Flex **B-Series**.
