

STUDIO CLICK

Click and conference

9 REASONS

to click and conference with our Studio 1-Click bundle

The Studio 1-Click turns your meeting room into a flexible video space that works with any conferencing platform and any device. The bundle pairs seamless wireless presentation from Barco CX products, PLUS People Tracking and NoiseBlock technology from the Poly Studio USB video bar, creating a one-touch-to-join video experience - perfect for any small or medium space!

#1 One-touch-to-join

Turn your meeting room into a BYOM video space.

The bundle pairs seamless wireless presentation from Barco CX products, PLUS People Tracking and NoiseBlock technology from the Poly Studio USB video bar, creating a one-touch-to-join video experience – ideal for the huddle and small meeting space.

#2 Cloud Flexibility

Multi-purpose flexibility for all of your meeting rooms.

The same video and audio experience every time – any employee, any platform on any laptop device!

Whether you use BlueJeans, Lifesize, Pexip, Zoom, Teams OR any other platform, Studio 1-Click will cater to your video preferences and wake up the Poly Studio video bar with a click of the button!

#3 People Tracking Camera

Let the camera focus on you, whilst you focus on your meeting.

The Poly Studio houses a 4K camera with People Tracking technology, meaning participants in the room will be perfectly framed no matter where they are sat or how much they move around.

#4 Centralised Management

Deploying multiple hardware solutions in several sites is made easy with plug and play installation. But what about managing these units on each site after installation?

Both Barco and Poly have their own Centralised Management platforms, meaning that you can rest assured knowing you and your customers can access these units remotely for troubleshooting and software updates.

#5 High Quality Audio Control

Are paper rustlers, pen clickers and loud typers interfering with the quality of audio that the far end is receiving in your meeting?

Not with the Poly Studio USB video bar. The NoiseBlock and Acoustic Fence technology in the Poly Studio ensures to minimize background noise and ensure that your voice is heard loud and clear with 4 built in microphones.

#6 Industry leaders

Two industry leaders that are putting simplicity, reliability and quality technology into their products and making one super-solution.

With decades of experience in AV and VC solutions, Barco and Poly have been making technical advances, growing their brand and expanding their portfolio and will continue to do so in the future - meaning that the Studio 1-Click solution will be part of your meeting room for years to come.

#7 More button features

With the new CX button you have access to many great new features such as:

1. A 7 Second start-up
2. No drivers to install
3. Click the button to instantly use the USB hardware for your meeting
4. As a meeting participant, receive a copy of the main screen on your laptop
5. A 'quick button' to provide you with quick access to your meeting settings such as view room display, annotation, moderation and much more!

#8 ScanSource Technical Support

Often when buying multiple products, you need to contact multiple resources for technical assistance.

The Studio 1-Click is a ScanSource made bundle, meaning you have one number to call when you need support. Our Technical team and Helpdesk have high-level Barco and Poly certifications, so we can deal with your query knowledgeably and swiftly.

#9 Try before you buy!

Click and conference - it's that simple. Click the Barco button, watch your Poly USB peripherals come to life and start your meeting.

Don't believe us? Try it for yourself by making use of our extensive demonstration pool.
